

158. Since July 2015, I have referred to the DCPH/LPHA Monthly Activity Report:

- 29 Never
- 18 Once
- 22 2 times
- 11 3 times
- 32 4 or more times

159. I share the report with my staff for their use.

- 42 Yes
- 70 No

160. I would like to continue to be notified by email from DCPH staff of updated activities scheduled for the upcoming month after the calendar is published.

- 73 Yes
- 39 No, this is not necessary

161. DCPH should continue the monthly calendar and notification process as it exists?

- 81 Yes
- 31 No

What suggestions for changes to the process do you have?

I am not sure which calendar and report this is referencing.

Eliminate because most DHSS staff do not list their visits there.

I do not know what DCPH is but sounds like I should be looking at the report whatever it is.

IT IS NOT IMPERATIVE FOR US

I don't care if DHSS staff come into our jurisdiction but the administrator should be notified by DHSS if they are planning an agency visit to see other LPHA staff.

Scheduled calendar notifications are good, but to really meet the need there should be a mechanism to notify of also unscheduled/unplanned activities by not only DCPH but all DHSS staff.

I don't know what this is referencing

Unclear on what you are talking about.

I do not think the calendar is necessary. I do think that when DHSS staff come into our office that they should say hello to the administrator.

A contact number if there is a question

When I viewed it I did not find it helpful. Another time I tried to link to it, it was not functioning.

If DHSS staff are in our county, think a courtesy call should be made.

Put in alphabetical order by county

I don't know that I get this now.

Never heard of it.
